

# Who Will Be Taking Care of My Dog?

Dogs are creatures of habit; they like familiar, friendly faces—dog or human. That's why your dog will be supervised at all times by the same qualified Dog Handlers who are dedicated to giving your best friend a terrific experience—whether for one visit or many.

JDPC Dog Handlers go through several weeks of intensive training to learn about animal behavior and dog communication. They are taught to constantly walk around & observe and interact with dogs, with a focus on keeping play nice and safe. Our Dog Handlers also adhere to strict standards with daily sanitizing, ensuring a healthy place for your dog to stay. JDPC employees are also involved in ongoing pet first aid training.

While we love and understand dogs, we are not veterinarians.\*

Our passion lies in canine behavior and development.

Just Dogs PlayCare focuses on health maintenance and disease prevention by keeping dogs active. Our goals are to play with and train dogs; teach pack socialization; address regular health concerns; understand dogs' minds, hearts, and behaviors; and give them love, work, and purpose.

*\* If an injury or illness would occur while your dog is at JDPC, we would typically use your own vet (if in Iowa City, Coralville, North Liberty, or Tiffin). After hours, we use Bright Eyes & Bushy Tails Emergency Clinic. Feel free to ask more about this during your pet's intake meeting.*
